---

Team,

A few important process reminders and a couple of near term / immediate needs.

Today we are going to send an update redline version of the preamble and RIA to OMB. I will be preparing a cover note / memo summarizing our actions in response to our discussions with them. Paul Machiele put together a chart and sent around on Friday. I have miscellaneous info from others. I still need input from the team so the chart and my resulting memo can be inclusive of our actions. Vince, Michael and Bob had info they note they would include. Please advise of the status. I need this ASAP so I can get the note / memo done and have ready to accompany the compiled preamble.

Also, I updated the internal Q/A's last week. I have attached the latest version. John, I'm still waiting on your teams review / updates to the program sections. I'll need these today as well.

I updated the general RFS2 factsheet last week based on a change to the numbers and have updated and reformatted again. Here's newest version:

Bob, Vince / TCD -- Do we have a final LCA Factsheet? If so, can you please send to Justin and I ASAP.

Other things are in process as well, but I won't spring those loose until we have a more definitive timeline for signature.

Thanks, Paul
